CasADI - 2024-08-04 10:58:17 WARNING("The options 't0', 'tf', 'grid' and 'output\_t0' have been deprecated.

The same functionality is provided by providing additional input arguments to the 'integrator' function, in particular:

- \* Call `integrator(..., t0, tf, options)` for a single output time, or
- \* Call `integrator(..., t0, grid, options)` for multiple grid points.

The legacy 'output\_t0' option can be emulated by including or excluding 't0' in 'grid'.

Backwards compatibility is provided in this release only.")
